Mini Weapons Of Mass Destruction 3: Build Siege Weapons Of The Dark Ages

Synopsis

Utilizing easy-to-find and inexpensive materials, this handy resource teaches desktop warriors how to build a multitude of medieval siege weapons for the modern era. Novice combatants will learn to build 35 defense weapons, including a marshmallow catapult, a chopstick bow, a bottle cap crossbow, and a clothespin ballista. In addition to beefing up their Dark Age arsenal, would-be warriors are provided with a number of targets on which to practice their shooting skills. Clear diagrams, instructions, and safety tips for each project are included, making construction of each of these weapons simple, safe, and fun.

Customer Reviews

John Austin is a professional toy designer and author of Mini Weapons of Mass Destruction and So Now You're a Zombie.

My Son has been glued to these books, dog-earing the pages and planning for world domination. To put this in context, his favorite gifts this year were these books and the 4 rolls of patterned duct tape he received in his Christmas stocking. He is now constantly walking up to me asking "Dad, do we really NEED this wire coat hanger? Are you SURE I can't have it" My only complaint about these books is what it will do to our home office supply budget.

Got this for my nerdy bro-in-law. I went thru the book and the most common items and included it with the book. He spent a good part of the weekend building different weapons. He's excited to display them on his desk in his lab.

this was a christmas gift. it arrived quickly, well packaged and was just as described. recipients liked it.

Bought this for my husband and he loves it! Boys will be boys :)

Great book for my physics class.

Bought as a gift for my son, who has Mini Weapons 1 and 2. This one was interesting, but he much preferred 2, which uses office supplies to construct various weapons that can actually be fired from your cubicle into someone else's.

My nine year old son bought this with his own money, and has been occupied since it arrived in making all manner of weaponry. In short, he loves it. The envy of all his friends, save those lucky enough to also own this wonderful book, he generously initiates anyone who is interested in creating their very own mini weapon of mass destruction. Ten stars.

Excellent book series! Very creative. You may need to help your kid depending on age. I put together a toolbox for my son (he's 8) as a gift and these books. was a really fun gift.
