Redwood Kardon is a former building inspector for Oakland, CA., and is the leading professional lecturer nationwide on building codes. He also owns and maintains "codecheck.com," a website devoted to promoting the Code Check manual. Coauthors Douglas Hansen and Michael Casey have 25 and 18 years of field experience, respectively. All three authors teach seminars for inspectors around the country, using the "Code Check" series as their primary material. Paddy Morrissey was the senior illustrator for CornerHardware.com and has been the sole illustrator for the "Code Check" series. Skip Walker is a certified residential combination inspector, who has a particular interest in smoke alarm performance issues and deck safety. Paddy Morrissey was senior illustrator for CornerHardware.com. All three live in the San Francisco Bay area. Douglas Hansen

lives in Palo Alto, CA.

In many instances this guide defeats its own purpose, as the the way it is written is unclear and makes it difficult to read or decipher.

I find this and all the code check mooks invaluable reference guides. Highly recommend them.

well worth the money for any plumber for reference

Great product.

Excellent

I bought this as a quick reference so I can make sure I don't have to do things over again when the inspector comes. It does the job alright although it is still missing quite a bit of information. It's pretty easy to find what you're looking for if it's in there, and it gives you a reference # in case you need to check the codebook for more details.

I got this on suggestion from the local city code inspector. It is concise and dense with information. It answered TONS of questions I had in a very small format - no reading 4 pages to figure out what wiring you can't use, etc. VERY HELPFUL.

As I'm a Commercial and Residential Real Estate inspector, these books are handy at the very least, they are in fact very well done! I have several in this series and I tend to use and refer to them until they are worn out. Thanks Douglas and crew!
