It was a book I needed for college and I finally very easy to read and understand. It came in perfect condition

never needed it tho

This book was helpful, a few dollars cheaper then the one at the college book store but, when your buying textbooks I guess every dollar counts. The expedited shipping took longer than I had hoped so I don't know if the extra money for it was worth it. Overall it's what I needed.

Interesting book I brought for a class. Tells a lot about the way we communicate that you wouldn't otherwise focus on

Purchase this book for my daughter's college class. Much more affordable than from the school bookstore. I even sold it back to when she was through. thanks.

Good condition! Nothing was out of place it is perfectly usable!

My daughter used this for college. It was a required text. We are thankful that we were able to find it on for a lot cheaper than the school.

The perfect communicating book. This was mandatory for a college course. This can be useful for both the business and personal world.
