Great book! My kids have a hard time opening the pages since they aren't really pages there flaps that go into each other but that's only be user they are 1 and 2 years old so they'll get the hang of it as they grow! However, they enjoy it when we go through it together :)

This is a wonderful Sesame Street book. It has flaps to lift, but in a very original way. It makes your toddler think to figure out how to turn the pages effectively. The pictures are cute. Our toddler loves animals, and this book has a few which do not appear so frequently elsewhere such as a sloth or a

spider monkey which is a welcome feature.

My 17 month old loves Elmo's Favorite Places flap book, so I had to get this one. It is beautiful, plus it has healthy foods on every page. We read this during breakfast/lunch/dinner time so it's great encouragement for the kids to eat healthy. It's good quality - flaps seem sturdy. It also introduces more of the lesser known characters so it keeps things interesting.

Love this book. Creatively designed with vibrant colors and interesting graphics. My 20 month old daughter loves this book and loves the way the pages open to reveal different animals hiding inside each page. This is our favorite Elmo book. I was happy to see the pages are high gloss and made of sturdy cardboard which makes it difficult for my daughter to damage them as she turns each page. Well worth the price.

My son loves Elmo and he loves this book. It took us a while (he's only 17 mo) to get the hang of the shrinking page size, but now this is one of his favorites. He likes to be quizzed on the different characters.

I do not like this book. My son has a difficult time with turning the pages due to the awkward design.

came as expected packaged nicely

I was so excited to get this book for my son. He loves Elmo. But I am slightly disappointed in the story. The pages are fun and the pictures are vibrant. My son seems to like the book ok. I just wish the words were more entertaining.
