Customer Reviews

This book is in pristine condition. Like New with no stray marks or blemishes.

Ordered this guide with some trepidation. It was a 2012 guide, don't know if it's been updated. We eat out often enough to worry about "guesstimating". Was also concerned 'cause we don't "do" fast food places and this book is mostly that, BUT it has got a front section for standard counts in most restaurants and lots of tips (nothing new here but it's still good to be reminded)....so, in the end I think it will be helpful and am happy to have it.

Book was listed as used but looked brand new! Helps me count the points for items at very well-know restaurants.

Only about 3 places mention were in my town.... so useless info.

useful
