A beautiful book with lovely photographs, written with passion and an obvious knowledge of the various special herbs and spices used for each herbal infusion. I love that this book has a beverage recipe for every occasion and life-stage. Makes a wonderful gift. I gave a copy to a friend who told me that she had been looking for health-boosting, caffeine-free alternatives to tea and coffee. This

book has the information she was looking for. Now she loves "infuse," too!

Lovely presentation, beautiful images, and enticing herbal tea recipes that I look forward to trying.

I'm looking forward to trying several of the tea blends mentioned in this book. I have a fairly large herb garden and hope to have blends to give as gifts this holiday season.

I was searching for books on herbal tea, and was so excited to find this one! I know Paula from my time in Santa Cruz, having attended some of her workshops (and our kids went to school together). I didn't know she'd written a book, so of course I ordered it. I'm so impressed I had to give a 5 star rating for the lovely and user-friendly design, the simple, approachable recipes and the helpful "Herb-pedia" chapter, which explains each herb and the accompanying benefits. The book includes great resources for ordering bulk herbs - I'm already on my 2nd order:-)... and while my kids are asking why I've suddenly become so tea-obsessed, I'm enjoying every cup!

Absolutely love this book. Learned much, love the photos. Enjoyed many of the recipes.

Great easy to use and understand book, well set out.

Really like this book. Really beautiful pictures and a nice overview of herbal teas in the beginning. Mainly all recipes.

I love the way the book was presented. Some of the herbs could not be found locally so I ordered them. If you're interested in learning about the different herbs and how to use them this is a good book to start with.
