Dr. Bill Donahue is the author of the bestselling Leading Life-Changing Small Groups, Building a Life-Changing Small Groups Ministry (with Russ Robinson), Coaching Life-Changing Leaders (with Greg Bowman), and the Equipping Life-Changing Small Groups DVD.

One of the major challenges for churches today is the need to bring nurturing and pastoral ministry close to the individual members of the church community. The days where churches could say, "here we are, come on in," are pretty much over. Small groups are a way for churches to go outside their four walls and be incarnate in the larger community. Properly constituted with trained leadership, small groups can provide close, intimate nurturing to each member. Members can also minister to one another on a more intimate scale. Small group members find it easier to invite their friends to a warm, small group. This book provides an easy to understand and implement way for churches to begin small group ministry. It is an excellent training resource. Working through the book it is easy to train new group leadership and to avoid some of the traps that small groups can fall into. I highly recommend this book.

This is the most uninspiring and dry book written for those who want to inspire others. I had to drag myself through it. It was almost as if the author was more interested in trying to impress the reader with his intelligence, rather than motivate the reader with useful information. I begged my small group minister to give me another book. I can't imagine being in a small group with Mr. Donahue. I think I would cry.

An excellent resource for learning how to become a small group leader or for training up a group of small group leaders! Good starting point!

I love it
