Customer Reviews

I have used this quick study guide to teach both French and English as a Second Language. Students of all ages love having them more as a reference guide. The items were very well packaged; however, I did have one where the corner was bent and the laminate a bit torn open. Apart from that, they were all new and in great shape. Quick delivery. Thank you

Reasonably helpful if you're too much in a hurry to consult a book.

This is a great handy chart for those of us who may be a bit rusty on our French and need a quick reference. It would also be good for high school or college students who are studying the language.

If you already speak a bit of French this can serve as a compact reminder resource. Otherwise it may not do much for you.

When I payed \$6 for this, I expected it to come not bent! But this is the mail people's fault, I suppose.

excellent in every way, works as described

very helpfull

Great
