A native of Cleveland, Ohio, Heidi Knapp Rinella moved with her husband and two daughters, Aynsley and Aubrey, to Las Vegas in 1999. Currently a staff writer for the Las Vegas Review-Journal, Heidi and her family spend their spare time exploring the city, looking for "kid-friendly" activities. Here's your copy of their adventure.

The prices in this book are out of date - it was published in 2001 and in 2005 the prices across the board were about 30% higher. Budget conscious Las Vegas visitors will want to keep that in mind. Otherwise it was a terrific resource for "freebies" and kid-friendly attractions.

I have enjoyed Las Vegas as a single tourist in the past, but when I decided to bring my family to Las Vegas, I knew that I needed to do some planning. I never knew just how family-friendly Las Vegas really was! The Lobster Kids' Guide to Exploring Las Vegas was a critical resource that made better use of our time. This book provided me with creativity and adventure. I was able to plan out our vacation and make last minute decisions with the direction from this author, who's descriptions were "right on". And, there was a large variety of activities to choose from. My family absolutely

loved our vacation and I loved the ease of it all (descriptions, tips, directions, price info, etc.).

Thanks to the help from this book, I know that the memories of our vacation will last a lifetime!

This book saved me a bundle of time and expenses when family came out to visit here in Las Vegas. I was a big hero to my nephews and nieces because I knew all the best places to take them to see free shows and other exciting things. My sisters and brothers loved me because once the kids had their adventures, they were free to do the adult vegas experience. Whether you live here (and have family and their children coming to visit) or whether you are bringing your family, this book has a complete list that will keep the little ones happy. From pirate battles to clown museums. Rollercoasters to wild life parks. **BUY this BOOK**

Now that I live in Las Vegas, the rest of the family, and their families are coming out. The Lobster Guide is a great tool to help them plan all the little trips and activities for the kids. I bought two copies and ship one to the folks prior to their coming to visit. They decide what they want to do and see and it saves me hours of hassle. The book has information on attractions and shows I never knew about. If you have kids, or have guests who have kids. **GET THIS BOOK!**

This book is great if you plan on visiting Vegas with the kids in mind. It gives a good description of the attractions, addresses, phone numbers, height restrictions, and prices. We've started checking off the things we've done in the table of contents. The only downfall is it doesn't really give a review of great buffets...only some suggestions of kid friendly eateries.
