USTA Jr. Team Tennis is the largest youth tennis league in the country, helping girls and boys ages 6 to 18 get in the game, get on the court, and have a good time. Teams are coed and made up of at least six players (three boys and three girls) based on similar ages and skill levels. The emphasis is on skill development, fun, teamwork, and friendly competition, all with the possibility of advancing to the national championship. Tennis is a sport individuals can play for life, and Jr. Team Tennis lays the foundation for a lasting relationship. The United States Tennis Association (USTA) is the national governing body for the sport of tennis and the recognized leader in promoting and developing the sport's growth on every level in the United States, from local communities to the crown jewel of the professional game, the US Open. Established in 1881, the USTA is a progressive and diverse not-for-profit organization whose volunteers, professional staff, and financial resources support a single mission: to promote and develop the growth of tennis. The USTA is the largest tennis organization in the world, with 17 geographical sections, more than 700,000 individual members and 7,000 organizational members, thousands of volunteers, and a professional staff dedicated to growing the game. The American Sport Education Program (ASEP) has been developing and delivering coaching education courses since 1981. As the nation's leading coaching education program, ASEP works with national, state, and local youth sport organizations to develop educational programs for coaches, officials, administrators, and parents. These programs incorporate ASEP's philosophy of "Athletes first, winning second."

I coach a high school tennis team, and this has some good tips.

This book was adequate for explaining the rules of the game and providing a structure to frame a new league tennis coach's plan for the season, but contained very limited information on "how to teach tennis to kids." I am a father teaching tennis to my three children (ages 10, 8 and 6). I was looking for a resource to provide me ideas, games and concepts to teach the game correctly to my kids in fun environment. This book didn't give me anything I can use.

This book is a good start for beginner coaches getting into the industry. Pros interested in rearing more competitive youngsters need to consider more that are not in this book. If you are starting to coach, this is a good book to start with. If you have some experience already with coaching children and adolescents, this book may be a little elementary with mostly review pointers.
