Synopsis

Their Eyes Are Moving: Creepy True Stories of the Kids' Toys...Claim Your FREE Bonuses After the Conclusion! Perhaps one of the less common things people feel is a fear of dolls. There is something about those little bodies and creepy little faces that just put people on edge, regardless of any past experience they've had, movie they've seen, or story they've heard. Pedophobia, as this fear is scientifically named, can range from modern Barbie and Bratz dolls all the way to porcelain and antique dolls. Some only have a fear of one kind of doll, others have a fear of every doll imaginable. But, all in all, the fear is generally classified as one of the many phobias people face in life, and isn't taken seriously. Then, there are times that dolls should be feared. Not all dolls, not all of a specific kind of doll, but dolls that have been grasped by beings we can't see. Dolls that have been brought under the power of beings we can't normally hear or feel. Dolls that have become haunted. Though they look innocent, harmless, and like the perfect companion for any little boy or girl, these dolls are malevolent, malicious, and horrifying. There's nothing playful about any one of them...Here Is A Preview Of What's Inside...

Roger is a non-fiction author that enjoys writing about our worlds conspiracy theories, true paranormal stories and ghost stories. Over the years it has always staggered him as to how many unexplained mysteries there are in history. A small town in Romania is where Roger likes to call home with his wife and dog. Here he finds the inspiration to write and explore all the unusual happenings of our world. If you're into unexplained phenomena, the paranormal and conspiracies that have happened in the past and continue to happen, then be sure to check out his books.

An incredible book on the very creepy subject known as haunted dolls. The author surveys several haunted dolls from the US and world and tells those stories in his excellent storytelling style that both tells the reader the story and creeps you out without over embellishing. His research is extremely meticulous and his writing is tight with excellent grammar. All those researching the paranormal or those looking for a good scare (you might want to keep the light on at bedtime, especially if you own any creepy dolls!) will thoroughly enjoy this book. I did receive a free ARC pdf of this book in exchange for a fair review, but immediately added it to my Kindle e-book collection on publication.

Very good read. I am a doll collector and I always enjoy reading about haunted dolls. I would recommend this book. I really enjoyed the stories and am looking forward to more by the author.

Eerie stories of dolls that seem to come alive but not when people are watching. The next time you're in a toy section carefully go down the doll aisle and see if their eyes follow you. Or the next time you pick up a doll at a thrift store or yard sale you just might bring home more than expected.

This was awesome, and simply chilling. Many stories of haunted dolls, or souls that went into the doll after they died. I'm so glad that they weren't haunted stuffed animals, because I love those. I've never really been into dolls, and according to this book, for good reason. I enjoyed reading about these people's experiences. I was truly spooked out. Great book. :)

This was a pretty good creepy read. There were a few dolls mentioned that I hadn't read about before. The first half of the book was completely new stories and the second half of the book were

stories about dolls from his other book which I had already read. Three stars on this one.

I have always had a fear of dolls, yet I couldn't resist reading the book. The Author is a very good writer. I hope I can sleep tonight. The last time I read a book about haunted dolls I ended up having nightmares. But as I said I couldn't resist.

good stories

Thanks! By reading Haunted Harold I got my own Haunted doll. Her name is Tandy.
