Gambling, Luck, And Astrology: Win The Maximum. Lose The Minimum

Synopsis

This book shows how astrology affects your luck gambling. Why is it that sometimes you are lucky and other times you are not? Understand the secrets of how the planets affect your luck. There is a hidden side of gambling -- one that a few select astrologers have known, but has never been shared with the public. Astrology has been used successfully for years in the stock market and now these discoveries are applied to gambling. Many people are skeptical of astrology. But what if you could test it out in the simplest manner -- by seeing if you win during specific astrological times. Most people believe that luck falls to people randomly. However, this book shows how luck is distributed by the planets. Optimize the times when you can make the most money. There are windows of opportunity for huge wins that are waiting for you, but if you are not gambling at that specific time, you will miss them. There are usually four or five times a year when it is possible to win large amounts of money. Make sure you are at the tables or slots when these major wins are most likely to occur. During certain astrological formations it is almost impossible to win, no matter how wisely you play. Learn how to avoid the times when you are destined to lose. Win more money and have more fun by learning how to use astrology. Those who gamble more frequently can find optimal times for winning during any time frame.

Customer Reviews

I just finished reading this book and I just loved it. I will go so far as to call this a guide book or a manual. I actually took notes and was thrilled to see that the author also uses Magi Astrology which I have been using for 2 or 3 years now to find my luck. So much easier to gamble and advance and find your luck without having to rely on house systems. I've managed to nearly double my salary and get promoted 3 times on my job since I started practicing Magi. This is no joke. The author is NOT a quack. S/he is very knowledgeable about his/her craft (s/he writes under a pen name so I'm not sure male or female). The book is very well written and the only issue I found with it was that it is not in hard copy. My mother won \$5000 in the Big Four Lottery (Pennsylvania) during a Pluto quincunx her Uranus and at the same time she had a Pluto trine Jupiter and Neptune parallel her Venus. This stuff works. My mother is one of those gamblers who uses her intuition to win though and every time she does I pull out my astrology software and check her aspects on the day she won and surely enough it is exactly what this author talks about. I will say that the book is definitely for those who understand astrology (students or astrologers). The author speaks the language of an astrologer. Those who do not understand astrology may become frustrated and those who do understand astrology will recognize its value right away. Those who don't believe in astrology--well, it's your loss. I have hundreds of books and I consider some more valuable to me than others. This is one of those more valuable than others. I have been keeping record of my own "winnings" (not so much in the lottery as I don't really gamble, but am looking forward to it), but I've noticed that whenever I get lucky (raise or promotion or close on a house or buy a car) Pluto is somehow involved in that success. I can go on and on. I'm glad I found this book and I do recommend it and if you do not understand astrology it is worth it to learn it so you can put to practice what this author teaches.

Found the book right on. I am a gambling astrologer who uses the cusps to tick off events with close (one deg or less) aspects as you mentioned in the book and other relevant ones like Transpluto. I have some software that shows this from Lorraine DeFelice from Las Vegas before she passed in 08 who taught it and wrote a book too. Would love to discuss all with you! Would love to contact you... what would be the best way? Linda

Valid astrological techniques for winning.
