Customer Reviews

My 6 year old son loves super heroes, and has been learning to read in kindergarden. Today, he picked up this book, (he'd never read it before, or had it read to him, since we'd gotten it along with so many others recently) and began to read. He was so surprised, and so excited. The layout is VERY simple, unlike the other DC comic readers that have a lot of text, this is more like the earlier super friends books, just comic style. The words were overall basic, so he was able to read almost the whole thing. It gave him so much confidence, he picked up another book and started to work through it.

The three year old loves this book and this whole series of Justice League stories. I just wish there were more female characters.

My granddaughters love these series about girl super heroes!

As expected, my child loves it.

I love these books, but the binding was horrible. Fell apart immediately. Only had it for 2 hours before all the pages fell apart. My son cried because he thought he broke it. I wish they were stapled and not glued together.

I love it. It's perfect for children that don't know how to read because it is like a comic book. A lot of pictures and very little letters.

Fantastic book. Great art. Colorful. Lots to comment on and speculate about while reading. This is a keeper for the little superheroes you love. Sure to bring smiles and some toddler-level suspense as Catwoman dodges the Justice League.

My Daughtert loved it
