Customer Reviews

I am an adult and got braces 4 months ago. I bought this book to have a journal about my journey with braces. This book are definitely for kids .. I don't like it ..too animated. Will be giving it to my 11 year old niece.Hope she likes it.

My daughter didn't care for it. Not sure why. I thought it was cute for someone getting braces. She was 13 at the time.

It came written in! Seriously! Awful.

Super Duper cute!! My patients will love it!!

I love all Dan Price's stuff. This journal is quirky and fun with lots of bonus stuff. Great drawings, quotes and advice for kids. Thanks Dan!

Getting braces can be an emotional and painful experience. This little journal not only helps keep the child focused on the various stages of getting and having braces, but includes wonderful bits of information to help take the child's mind off the painful process of wearing braces. There's the "before" and "after" photo spots, the encouraging text to help keep the child's spirits up throughout the ordeal, and even sections on what to do in an emergency were one of the braces to pop off or become a problem. Dan Price is a very creative mind, and this is another wonderful book that should be given to every child about to experience braces.

It can be so difficult for any kid to go through adolescence as a "brace face," and this journal, with its fun, colorful designs and creative layout, makes the perfect companion for anyone who struggles with braces. It's also as helpful [with "forbidden foods" lists, etc.] as it is fun. My kids love it!

Total waste of money. Silly idea to start with. This journal will serve well as landfill material.
