Great quality but not well thought out-Some colours have random objects that could have been any colour, for example, a green toothbrush or shirt, or a purple hat... more effective when objects are actually the colour described.

Good

My husband is Syrian and I am American, the book is perfect for our little girl to learn. I would give it 5 stars but some of the words do not match the Syrian Arabic word. I have studied the Arabic letters but I am horrible at common nouns.

great book for toddlers. All pictures are good and the whole book is just educative if you appreciate languages. I wish there would be spanish/arabic because they are closer together if you know the languages. For example German/English have many words in common. Portuguese/Spanish do too. Etcc. So for a Spanish speaker that also speaks Arabic, even though the words are way different in writing they are so similar in pronunciation. But English and Arabic kind of sends your brain off. But again, that because I know these languages. Not because there is anything wrong with the book. The book is very sharp.

Book fell apart the first day.

A very good teaching tool

I wish it had the words spelled in English just like it would sound in Arabic that would've been great
no english pronunciations of the words.
