I have a better understanding of the Dash Diet after reading this book. I find this book very informative and IÃ¢Â¢Â¢m really excited to try the recipes on this amazing dash diet cook book.

The cookbook has many good recipes without too many unknown ingredients, which to me is a plus. However, as a DASH Diet cookbook you would expect the recipes to include the number of DASH Food Servings; for example: 2 Dairy, 4.5 Fruit in the Breakfast Delight, which for me is over my number of fruit servings for an entire day and the max on my Dairy Servings as well on my 1,200 calorie DASH diet, as I am short. So it wasn't what I was expecting. Since I am new to the DASH Diet, I found I still had to do a lot of figuring with these recipes to stay within my servings goal, especially on recipes that contain multiple ingredients. And what about the sodium content. Shouldn't that be included? I also found the descriptive adjectives in the recipe names annoying, like Amazing, Delicious, Tasty, Special. Really?

I actually know Anna. She is the nutritionist at my office cafe (yeah one of those large tech

companies cafes) I interact with her a lot because of some of the stuff I do and when she found out I was dealing with high blood pressure she offered to give me counsel. I had already altered my diet and started exercising more but she had a lot of great insight to things that I could do on top. However, with the increase in energy I still lost a few pounds without feeling hungry or deprived. The best part of the DASH diet and the recipes is that it is just plain good nutrition. Thus it is good for the whole family.

This book is stunning formulas Dash Dite Cookbook.the writer done her employment great.. I discover this book extremely educational and I'm truly eager to attempt the formulas on this astounding dash slim down cook book.Its an awesome asset to oblige the Dash Diet and I can hardly wait to attempt more formulas and proceed with my adventure on my weight loss.so i cherish this book formulas.
