Customer Reviews

If it were possible that is exactly what I would give this entire series. This book is a segue into the next installment and is wonderfully done. It is not necessary to read these books in order but you really should. I am continually challenged by Ms. Stallings work. She makes me think, consider other possibilities, grow, and maybe even slow down. A Moment Like This brought us back to the gang in Ridgemont and how their perfectly imperfect lives are working out. The Christian love that creates layers is inspiring because it is possible simply by choice rather than demand. Of all the characters in this series, Rachel and Caleb are my favorites so it was wonderful to see this next step in their lives.

Loved how the depth and commitment to marriage is displayed in this entire series. Actually,there are life lessons for all to absorb wrapped in this beautiful love story. Anxiously awaiting the first book that connects with this series!!If I have any complaints,it is just a nit picky thing, but,what's up with the stupid "eep" every time Sage gets excited? I'm 72 and have never heard anyone "eep"! I've tried to say it out loud~ can't figure it out! And never once were the ages of the pastors sons,or Sage & Luke twin boys ever mentioned. I'm a very visual reader and need to get a picture of what some of the important characters look like!

Be still my heart! What a great story and great series. I really enjoyed this book because it continued the earlier stories in the series, plus Caleb and Rachel got married!! I honestly think these books could be used as counseling tools for engaged (and already married couples). Staci Stalling's stories are rich and deep.

Charming- I really loved this and I would recommend to any woman married and in love. This book can hep sort out your own feelings in your marriage and maybe guide you for a little help. It shows the struggles and rewards in couples that are working so hard to make their career work and still

have time for your family. I have been married 27 years and I thought the book to be very uplifting.

I have never read a Christian romance that blessed my heart like these in this series. Looking forward to reading the next one. Headed over to to buy the next one in this series.

How lovely to read good clean stories of love families husbands and wives children and no explicit sex really enjoyed reading this book

Best series from Stacy Be prepared for some long reads...but so thought provoking and edifying.

When I saw prequel I expected a very short story with no big message in it. How far from truth I was. This is simply another of the Grace series books by Staci Stalling and it is as good as the others. Highly recommended.
