## Customer Reviews

I have a few core 5 star favorite mosaic books. This is a nice addition with some different ideas not in other books, but the style is not similar to my own.

I've been a glass artist for some time now. I came across Helen's book and really love it. She explains techniques very well and gives you some great projects to do. Some of the projects in the book are clocks, love letter rack, aztec box, flower pot and many more. A great book for the beginner or experienced glass artist!
