I have been looking for a truly difficult sudoku book for awhile. The ones in the stores just won't do anymore, but Will Shortz books have never steered me wrong in the past. I think that the size of this book is perfect for my notes on the sides of the puzzle. It gives me plenty of room within the squares for my notes as well. I am going to have a wonderful challenge with this book I am sure! Thanks again :-)

Have purchased a number of Will's books, and each one has been difficult, but fair. I have purchased others that expect you to spend a whole day trying to solve them. If you just enjoy a 15, to 30 minute relaxing solvable puzzle, buy one of Will's books. It's loaded with them!

If this book would have had previews of the puzzles, I never would have bought it. It starts out Difficult and then goes to Beware! Very Challenging. Not the hardest sudoku that Will Shortz has published, but that was what I was led to believe. I returned it and am looking for something more challenging.

The puzzles are OK but the paper reminds me of the brown toilet paper in Morocco.

I have been doing Sudoku puzzles for 10 years. Mr. Shortz always has good collections of them. This one was indeed hard, but fun to do.
