Tonal Harmony

Synopsis

For a generation of professionals in the musical community, Tonal Harmony has provided a comprehensive, yet accessible and highly practical, set of tools for understanding music. With this new edition, twenty-first century technology meets a time-honored tradition. Now available in McGraw-Hill Education's Connect® with SmartBook®, students are better equipped to understand and master the vocabulary of music efficiently, allowing them to move on more quickly to advanced musical skill-building.

Customer Reviews

Well written and organized college music theory text book. The exercises are very instructive well the worked out examples are demonstrated in a fashion that is easy to gain the lesson well.

Great book. The only alternative would be the one by Piston. This one is more student oriented with many exercises. Putting 4 stars only because of poor paper quality - it is glossy and all that, but extremely thin. To my opinion paper got a little bit better compared to the previous edition, but still not as good as it should be for the book with this price tag.
