Sex & Gender

Synopsis

This is a comprehensive introduction to sex and gender theories, research, and issues, focusing on social psychological and feminist perspectives. The book examines the similarities and differences between women and men, discusses where that knowledge comes from, and explains how that knowledge may itself be shaped and limited by cultural perceptions. This new edition has been thoroughly revised with up-to-date research citations for all chapters and more current examples.

Book Information

Paperback: 696 pages

Publisher: McGraw-Hill Education; 6 edition (July 23, 2007)

Language: English

Customer Reviews

Hilary Lips unsurprisingly has a strong feminine bias, but that doesn't harm her credibility. There is a lot of insight and research (which is easy to read) that is important to teach to a world that is generally ignorant in both the physical and mental realms of sexuality and gender--I was and am no exception to that ignorance. I rented the book for my college course on Psychology of Gender. After combining the book with my class, I have gained more understanding and, even more importantly, empathy, for people that have for so long been the subjects of various emotional pains for their misunderstood ways of thinking and living. I am a better person because of what I learned.

This book is an excellent introduction to sex and gender. It cites lots of relevant research, and gives examples to keep reader interest. I had a decent grasp of the topic before opening this book, but reading it helped expand my knowledge.

I did not know a book like this even existed. I am happy to see that someone finally took the time to

seriously write about this topic. It is very clear and easy to understand. I highly recommend it.

exactly what i needed for class; arrived in great shape

It's the exact book I needed for my class. I love that each chapter has a summary and the book is easy to understand.

Book was nice. However a challenge to understand in a few areas

CHose five stars because it came at the designated time and nothing was wrong with the shipping or quality of the book itself, too bad I dropped the class because it didn't fulfill my interests!

The articles and information were both stimulating and thought provoking. Sex and Gender is a must for any psych major.
