Customer Reviews

Good:Has virtually all of Chopin's solo piano worksSpiral-bound, so it sits flatClear print, high quality paperNot-so-good:Its very very big. 728 pages big. If you are playing something near the beginning or near the end of the book (so that much of the book is is on one side) it may not sit on your piano music stand. May have been better to split it into 2 or more volumes.

This huge book contains all Chopin's Ballads, Études, preludes, Mazurkas, Waltzes, but definitely not the entire Chopin's music. For his 31 years of age, Chopin was one of the busiest composers of his time. His musics are very challenging, so if you like challenging yourself with difficult pieces while entertaining classical piano lovers, this book is for you.As many reviewers already stated, it may be challenging to keep it open on your piano rest, especially the first few and last few pages.

I wish the biniding on the book was much stronger. I don't know what to use to hold all of the pages together. The only thing I can think of is splitting the sections into different binders. The music is

beautiful and it is really printed nicely. It is easy to read, and the notes are not too small.

Super

The music is easy to read and includes fingerings and Chopin's original ornaments. The book is a huge volume that is heavy and somewhat bulky, but it's wonderful to have so many of Chopin's piano pieces in one volume.

This was a Father's Day gift and it was exactly what my husband wanted.

Came in good shape and my son is just starting to use it.

I look forward to playing all my favorite Chopin pieces from this one source.
