Customer Reviews

Praise for Dragon Masters #1: "In this first of the Dragon Masters series, vocabulary is accessible; sentences, paragraphs, and chapters are short; and dialogue moves the story along rapidly. Black-and-white sketch-type drawings add depth to the story and feelings to the characters (both children and dragons). Emergent readers will find happy success here." -- Booklist "The first of a new series of early chapter books, this entry is sure to attract fans. Brief chapters, large print, lots of

action, attractive illustrations in every spread including a maplike panorama, an enviable protagonist -- who wouldn't want to be a Dragon Master? -- all combine to make an entertaining read. With plenty left to be resolved, the next entry will be eagerly sought after." -- Kirkus Reviews"Each page features wonderfully detailed pencil illustrations which help to support the text." -- Library Media ConnectionPraise for Branches books:"These books should be considered for larger libraries wanting to enhance their easy-reader collections." -- School Library Journal"A nice stepping stone to more advanced chapter books." -- Booklist

The prime Dragon Stone is in danger! The Dragon Masters could lose their connections to their dragons forever! Heru and the other Dragon Masters must follow clues to find the Pyramid of the Seven Dragons. Then they must use their dragons' powers to reach --This text refers to the Hardcover edition.

"Flight of the Moon Dragon" is the sixth of Tracey West's Dragon Masters series of chapter books for young readers. As exciting and engaging as other books in this series, the story is enjoyable for both new readers and as a read-aloud for preschoolers and kindergarteners. Involving both magic dragons and diverse, multi-ethnic children who are learning to become Dragon Masters, the stories stress the importance of following instructions and in the case of the young Dragon Masters, those of their Wizard mentor Griffith - and cooperating with one another to accomplish a goal. Bearing disturbing news, Heru, from the Land of the Pyramids, and his dragon Wati have come to King Roland's castle. The prime Dragon Stone is weakening. Its glow is waning; the pieces of Dragon Stone the young Dragon Masters wear are losing the power to connect each with their own dragon. Wati tells the others that it will take six dragons and six Dragon Masters to enter the pyramid where the prime Dragon Stone lies. King Roland agrees to allow the five Dragon Masters to accompany Wati. Arriving in the Land of the Pyramids, the group meets Wati's parents and enters a secret chamber containing a rhymed clue about the stone's location. Using the clue, Wati and Drake discover the location of that pyramid; Worm, the Earth Dragon, transports the six Dragon Masters and their dragons to the pyramid. To enter it, they must solve a riddle. Once inside, they must cooperate as they work through a series of clues that allow them to pass through six doors. Upon passing through the last door, Drake discovers the prime dragon stone and the reason for its waning power. Short chapters and a varied, but not overly sophisticated vocabulary, make "Flight of the Moon

Dragon Masters is an easy to read book. Short, simple sentences and the less complex structure of the narrative allow young readers to feel a sense of accomplishment while reading the story. The subject matter of wizards and dragons fascinate my grandson who thinks some early reader books are "for babies". Since discovering the Dragon Masters, he has become an enthusiastic reader, wanting to read and learn more about those mythical creatures. Because the books in the Dragon Masters series contain magic and action, and situations that engage and interest him, he has started to explore the library for more difficult reading material. Both my grandson and I are thrilled to learn that the Dragon Masters series will continue. "Flight of the Moon Dragon" features Damien Jones' black-and-white illustrations on almost every page. Unlike the simplistic drawings in some other children's books, these have depth, perspective, and dimension. The illustrations are visually interesting and very appealing; they bring the characters to life. Children, who may have advanced to having chapter books read aloud to them at bedtime but who still want pictures to accompany the story, find this feature of the Dragon Masters very appealing. As a grandparent who loves to read and wants to encourage a love of reading in my grandchildren, I appreciate that Tracey West has decided to include illustrations throughout the book. If you are looking for a series of books that will interest early readers, particularly boys, you will want to look at the Dragon Master series. It is not necessary to have read the other Dragon Masters books to enjoy "Flight of the Moon Dragon". Tracey West provides enough background information in this sixth book of the series so readers will enjoy it, even without reading the others. However, if your young reader or listener is anything like my grandson, they will want to collect all the books of the series! I have already pre-ordered the seventh book of Tracey West's Dragon Masters series. Her books are a wonderful way to encourage young readers. They are fun to read, contain enough fantasy and magic to appeal to children, and teach some good lessons about cooperation, the importance of listening to and of understanding others. "The Flight of the Moon Dragon" included problem-solving as another of the positive lessons contained in the series. Not only did this further strengthen the story, it recognized the series' readers are maturing and are ready for more complex ideas.

These books just do not last. As soon as they arrive, they are torn out of the packaging, and immediately read with minutes, cover to cover. They get devoured. My kid definitely rereads this series. I just wish the author could keep up! Great content!

My daughter who is in kinder absolutely LOVES these books! They are quite easy reading for her (she is an advanced reader at the 2/3 grade level) and can read the entire book under 2 hours, but ANY book that captures her interest, imagination, and love for reading gets an A+ on my list! ...She chose to order books #6 & #7 with gift money, and after reading #6 she HAD TO start the next book right away. Tonight I ordered ALL the other books in the series. She also likes the Greetings From Somewhere series, along with Haggis & Tank and Owl Diaries books. We tried an A to Z Mysteries book, but after the 1st chapter she still couldn't get into it (and neither of us liked the name calling in that one.) Dragon Masters is definately more kid friendly. We are excited to go back & read the beginning books!

My 7 year old son & I LOVE this series!! He reads independently, but we like to read this together before bed. The stories are suspenseful and captivating. My son is not particularly into dragons, so I wasn't sure if he would enjoy the first one, but he's hooked! We've read 1-7 and awaiting #8 to be released in the Fall. :)

My 1st grade son loves this series... it's cute and engaging. The concepts are easy to follow, this means (for my kids) that they can fully immerse themselves into the book and story and be challenged by the reading itself without being overwhelmed. This might be a level before Magic Tree House, but to me, if they are reading and enjoying it then it's a win!

My 4 year old is obsessed with the Dragon Masters series. We read a few chapters from one of the books every day. It is perfect because she is getting a longer attention span but still needs a book with lots of pictures and short chapters. The climactic parts have drama and tension but aren't overly scary. The stories about different dragons and kids from different parts of the world capture her imagination like nothing I have ever seen. This is an incredible series that I also enjoy reading with her, and I hope Tracy West continues to write many many more!

Great book - very entertaining - my 9-year old (who cannot stand to read) could not put it down. Very pleased with the content and storyline.

I ordered one book in the series. My second grade boys love this series! I've purchased all the bookS in the series. They can't wait for the next book to come out!
