Surfaces And Interfaces For Biomaterials

Synopsis

Given such problems as rejection, the interface between an implant and its human host is a critical area in biomaterials. *Surfaces and Interfaces for Biomaterials* summarizes the wealth of research on understanding the surface properties of biomaterials and the way they interact with human tissue. The first part of the book reviews the way biomaterial surfaces form. Part Two then discusses ways of monitoring and characterizing surface structure and behavior. The final two parts of the book look at a range of in vitro and in vivo studies of the complex interactions between biomaterials and the body. Chapters cover such topics as bone and tissue regeneration, the role of interface interactions in biodegradable biomaterials, microbial biofilm formation, vascular tissue engineering and ways of modifying biomaterial surfaces to improve biocompatibility. *Surfaces and Interfaces for Biomaterials* will be a standard work on how to understand and control surface processes in ensuring biomaterials are used successfully in medicine.

Book Information

Hardcover: 802 pages

Publisher: CRC Press; 1 edition (June 14, 2005)

Language: English

ISBN-10: 0849334462

ISBN-13: 978-0849334467

Product Dimensions: 9.2 x 6.3 x 1.9 inches

Shipping Weight: 3 pounds

Best Sellers Rank: #12,413,770 in Books (See Top 100 in Books) #84 in Books > Textbooks > Medicine & Health Sciences > Medicine > Special Topics > Prostheses #519 in Books > Medical Books > Medicine > Prostheses #1118 in Books > Textbooks > Medicine & Health Sciences > Allied Health Services > Medical Technology

Customer Reviews

Ã¢â€Å| explores the classification, production, and applications of biodegradable polymers. Ã¢â€Å| this comprehensive volume explores the different aspects of biodegradable polymers from fundamental issues to industrial applications, and would be highly useful for all the individuals working in the area of polymers. It may not only support research and development but may also be suitable for teaching.Ã¢â€Å•John F. Kennedy, Parmjit S. Panesar, Chembiotech Laboratories, Institute of Research and Development, University of Birmingham Research Park, UK,

in Carbohydrate Polymers, Vol. 64, 2006 --This text refers to an alternate Hardcover edition.

P. Vadgama is Director of the Interdisciplinary Research Centre in Biomedical Materials at Queen Mary, University of London. --This text refers to an alternate Hardcover edition.
