Abduction: A Mpreg Yaoi Alien Romance

Synopsis

In a freak accident, the hull of Hisao's ship is breached by meteor debris and the young spaceman is sucked out into space. Terrified, alone and rapidly running out of oxygen, the young man waits to die until a bright light suddenly appears and sucks him into it. For a moment, Hisao thinks he HAS died, but his adventure has only just begun. Aboard the alien vessel, Hisao encounters a monster straight from his worst nightmares. Katashi is the name his alien calls himself and he is the perfect predator; towering over the little human at ten-feet tall, with carbon-plated armor for skin, a mouth full of razor-sharp fangs, super-human strength, acidic blood, venomous saliva and dozens of semi-autonomous tentacles. Poor Hisao fears the worst but fortunately for him (or unfortunately) the powerful creature sees the pretty little human not as prey to be consumed, but rather as the perfect little broodmare for the many offspring he wishes to sire. He feels no guilt about altering Hisao's body without his consent and no qualms about breeding the beautiful young man against his will. The alien is utterly rational, but simultaneously devoid of human conscience or morality. Will Katashi ever learn to respect and treat his mate as an equal, despite the human's physical inferiority? Can Katashi come to understand the importance of free will to Hisao? Will Hisao ever be able to forgive Katashi for what he has done? Can true love blossom after such a difficult start? It is an interspecies romance for the ages, that will change the fate of the universe because what neither Katashi nor Hisao realize is that their love and their children may just turn out to be the saving grace for both of their worlds. This strange, space-age "Beauty and the Beast" style story by Amelita Rae explores issues of free-will, consent, and what it means to be human, in the midst of some of the most graphic erotica you will ever encounter. The content is explicit and extreme and includes such sexual taboos as multiple penetrations, Mpreg, oviposition, minor scatology, tentacle sex, erotic birth, prolapse play and more. It may be quite disturbing for some readers so please enjoy responsibly!~34,000 words

This is definitely for you if you like size kink, tentacles and forced sexual activity. The story has its positives and negatives. All in all I enjoyed certain aspects of it.

While I cannot in any way condone the grounds on which the relationship in the book is built, the world building was done well. The species was well thought out and the logic was sound - after a fashion - and I wish it had been a longer story. It has the potential of being a thrilling adventure with more exposition, not just a very detailed porn with plot. Perhaps my favorite part was that the unnamed species are essentially walking nuclear reactors.

A new fave author for noncon SciFi of the yaoi/MM variety. Tentacles, forced breeding, mpreg - all in here. It is non con to start - and it certainly has a last 10% which indicates it turns into something more...but in between there is flamin' hot sex if this is your thing. It is my thing completely. DMC - but with a sweeter touch. The author knows how to incorporate both elements - which makes me super duper zipadeedoodaa happy!

I remembered first seeing this on AO3 and I'm so glad the author finished it. Be warned it's not for the faint hearted, and goes into some very kinky territory. However, if you're into kink it's a great read and there's also romance. The author always does a great job showcasing the relationship between her two leads and this work is no exception. If you want a hardcore, kinky sex filled story with love interwoven in this is the story for you.

Very strange and slightly unnerving but that is Yaoi for you. Very fast read and not for the faint of heart.

Tentacle fic? Only can imagine the hot steamy one. Bonus with the mreg and hard core scenes. I'm gonna lose some amount of blood.

This tentacle smut is an acquired taste certainly. But it was fun, the opposite of angst, hot as ***, and theres just something about being the target of such intense focus as here. If one ever decides to venture on reading some crossspecies smut, this would be the story to start with. Im just here for the fluffy bunnies!

I know there are parts that some people may find it disgusting but those parts are important in the story. I love the ending.
