# Biophysics Of Consciousness

## Synopsis

The problem of how the brain produces consciousness, subjectivity and "something it is like to be" remains one of the greatest challenges to a complete science of the natural world. While various scientists and philosophers approach the problem from their own unique perspectives and in the terms of their own respective fields, *Biophysics of Consciousness: A Foundational Approach* attempts a consilience across disparate disciplines to explain how it is possible that an objective brain produces subjective experience. This volume unites the crème de la crème of physicists, neuroscientists, and psychiatrists in the attempt to understand consciousness through a foundational approach encompassing ontological, evolutionary, neurobiological, and Freudian interpretations with the focus on conscious phenomena occurring in the brain. By integrating the perspectives of these diverse disciplines with the latest research and theories on the biophysics of the brain, the book tries to explain how consciousness can be an adaptive and causal element in the natural world.

## Book Information

File Size: 11919 KB

Print Length: 664 pages

Publisher: WSPC (August 23, 2016)

Publication Date: August 23, 2016

Sold by: Amazon Digital Services LLC

Language: English

ASIN: B01KUHDHWU

Text-to-Speech: Enabled

X-Ray: Not Enabled

Word Wise: Not Enabled

Lending: Not Enabled

Enhanced Typesetting: Enabled

Best Sellers Rank: #488,811 Paid in Kindle Store (See Top 100 Paid in Kindle Store) #31

Quantitative Understanding of Biosystems: An Introduction to Biophysics (Foundations of

Biochemistry and Biophysics) Introduction to Experimental Biophysics, Second Edition: Biological  
Methods for Physical Scientists (Foundations of Biochemistry and Biophysics) Biophysics of  
Consciousness Fractals in Molecular Biophysics (Topics in Physical Chemistry) Applied Biophysics  
of Activated Water: The Physical Properties, Biological Effects and Medical Applications of MRET  
Activated Water Nano-Optics for Enhancing Light-Matter Interactions on a Molecular Scale:  
Plasmonics, Photonic Materials and Sub-Wavelength Resolution (NATO Science ... Security Series  
B: Physics and Biophysics) Biophysics of Electron Transfer and Molecular Bioelectronics  
(Electronics and Biotechnology Advanced (Elba) Forum Series) Spectroscopic Techniques in  
Biophysics (Veneto Institute of Sciences, Letters and Arts Series, 4) Biophysics: A Physiological  
Approach Cellular Biophysics: Transport (MIT Press) (Volume 1) Cellular Biophysics: Electrical  
Properties (MIT Press) (Volume 2) Entropy-Driven Processes in Biology: Polymerization of Tobacco  
Mosaic Virus Protein and Similar Reactions (Molecular Biology, Biochemistry and Biophysics  
Molekularbiologie, Biochemie und Biophysik) Nonequilibrium Thermodynamics in Biophysics An  
Introduction to Environmental Biophysics (Modern Acoustics and Signal) Methods in Molecular  
Biophysics: Structure, Dynamics, Function for Biology and Medicine Radiation Biophysics, Second  
Edition Computational Approaches to Protein Dynamics: From Quantum to Coarse-Grained  
Methods (Series in Computational Biophysics) Biomolecular Thermodynamics: From Theory to  
Application (Foundations of Biochemistry and Biophysics) Spider Speculations: A Physics and  
Biophysics of Storytelling Beyond Biocentrism: Rethinking Time, Space, Consciousness, and the  
Illusion of Death
