Customer Reviews

I bought this for a trip to Nicaragua and realized there was not much detail. I drove around the country but the map was hard to use. I purchased a local SIM card for my phone, purchased a data plan, and just used Waze. Yes, believe it or not there's data coverage and Waze worked very well.

Made of great, water-proof material - but we found the map to either be outdated or incorrect as often as it was helpful.

The map was meh. Give a general layout of the country-very limited detail on the cities

Held up well with heavy use.

This is a beautiful big map. I love the material, as it seems like it will last forever despite repeated use and folding.

VERY GOOD MAP. EASY TO READ. NICE SURFACE.
