## Customer Reviews

At best this is a list of places in and around the two cities. It lacks the depth of all other Michelin guides I have used over the years. I would not recommend this. The map of Quebec is inconvenient to use and the details of places of interest are shallow. Unlike the classic Michelin guides which recommend walking tours, there is none such here. In fact most of the information one can get free at the Quebec tourist center.

Not up to Michelin standards. Very limited suggestions in all categories--popular sites, restaurants, hotels, neighborhoods, shopping, scenic walks, etc. Pass this book up and find another guide book!
