Customer Reviews

After you read several books about women with problems and babies, the stories begin to sound the same. Had to quit and go on to another genre for a while. I will return and read a few more in about a month.

I got this free on . It included a few of the books I have read already. I did enjoy the books. I recommend this book to my family and friends.

Brides and Babies. What could a good western romance be any better. The travel, the minute someone knew they loved that special someone.

I love all the books the author has written it takes me back to a simpler time. The books are well written and keep my attention. I get every one that comes out and cannot wait for the next.
