Harry Klaff taught high school social studies in the New York City public schools system for 34 years. In 1993, he was the honored recipient of the John Bunzel Memorial Award as NYC's social studies teacher of the year. As a member of city-wide Justice Resource Center, he helped write numerous curricula in law-related education. For many years, he created the annual Model City Council project, in which students took over New York's City Hall for a day-long simulation exercise. Jeremy Klaff has been teaching AP History classes for over a decade. His website, mrklaff.com has been utilized by teachers and students across the country for review materials as well as original social studies music. Jeremy has been a creative contributor to H2 Network, and has published Document Based Questions for Binghamton University's Women's History website, womhist.binghamton.edu. He has conducted staff developments for "Entertainment in Education" at

both the high school and college level.

If what you want is U.S. history distilled down to its essence, the Klaffs have written it. I teach US and World History (among other subjects) to high-school students who are confined to learning at home. And to me, No Bull Review is the definitive US history primer. Admittedly, this book should never take the place of the student's text book, especially reading primary sources of information. But, having read those, this book is a valuable addition. The authors condense the complex nature of history (and historical documents) into the beef...the salient facts...that students in New York State need to pass the U.S. History regents exams.

This was a useful review and was nicely tied in to the Regents exam.

This book cuts out all the extra information that History courses are usually stuffed with and cuts it down to what you really need to know for the Regent. It gives a quick clear review by section and then actual questions from previous regents on that section. Excellent!

Very helpful

Very good just not the book I needed but this book was helpful

Very direct, easy to read style, includes helpful tips and mnemonic devices for regents success. Each chapter includes multiple choice questions to test your knowledge. Highly recommended.

No tests included so you may want to buy another book with more explanations and tests. I bought two books this one and a larger AP test prep book and am happy. The bottom line is you do not have to buy an 800 page \$125 book to pass a test on American History.

As a US History Buff this reminded me of things I had not forgotten but had not thought about recently. Ideal for anybody taking a US History course. If you enjoy US history, I also recommend the America's Forgotten History Books 1 and 2. Start with Book 1.
