Customer Reviews

This is just the book I wanted ! It has the cooking chart , which tells me the food , weight , time to cook the food . It has simple , easy foods to make. I would recommend this book if you are new to fry cooking. Recipes are great. Price is right.

Great appliance, works well and easy to use and clean up.

Yep it's a cookbook.

Everything you will ever need to cook in an Air Fryer

Excited to use it !

Lots of good foods to air fry

Great

A regrettable purchase. This book is full of errors. Other than the charts at the beginning of the book, I found very little I'd consider using. Most recipes sound unappealing. The book is written using American English and British english. Zucchini is so named in some recipes other recipes it is called a courgette. Eggplants are called Aubergines. One recipe said to set the oven to gas 5. Measurements are in cups and ounces, pints and liters.
