Dr. Ann Marie Gorczyca is a Clinical Adjunct Professor of Orthodontics at the Arthur A. Dugoni School of Dentistry, University of the Pacific, where she speaks on practice management topics including marketing, teamwork, treatment coordination, customer service, management systems and human resource management. She was a marketing speaker at the 2011 and 2012 American Association of Orthodontists (AAO) Annual Sessions. Formerly a faculty member at UCSF School of Dentistry, she has received teaching awards from UCSF and University of the Pacific Dental Schools. Dr. Gorczyca is a Diplomate of the American Board of Orthodontics and is in private practice in Antioch, California. She lives in Northern California. This is her first book.

As the owner of a new startup orthodontic practice, I was extremely happy when I learned that this book was around. It is full of great ideas that I was able to immediately start using. Also, orthodontists are famous (more like infamous) for being highly territorial and competitive. In this regard, Dr. Gorczyca is like a breath of fresh air. She is, unfortunately, one of our few colleagues who genuinely cares about the well being of other dentists and specialists. She shares her "secret sauce" freely and openly, as she is secure enough in her own success to not engage in the silly chest puffing and dirty tactics of other orthodontists. Thank you, Dr. Gorczyca, for writing this excellent book.

A must-have book for any dental practice. From cover to cover, it is packed with crucial information not obtained at even some of the best dental schools in the country. Ideas embossed in the pages have helped my practice grow since reading the books. All of the ideas might not apply to your clientelle and patient population but even one or two great ideas from this book will help encourage morale and breathe some life into a stagnant dental practice!

I work a lot with new grads, fresh out of school and starting their first practice. There are a million decisions to be made in those initial months of building a successful practice, and I think getting the message out about the service they have to provide must be at the top of their list. This book is a must have and I will be recommending it often. Great marketing doesn't have to cost a lot of money, or be complicated. Dr. Gorczyca reminds us of the importance of building a real relationship with your community, focusing on a few things each month to excel at, and committing to excellence in the way you interact with your team and your patients. This book is packed with tips for improving your marketing and communication with your patients, responsible parties, staff, and community making this an excellent resource for new grads and established practices alike. ~ Lisa Schuelka, Systems Consultant @ Ortho2 Computer Systems

What an amazing resource for dentists (and honestly any small business looking to grow). Dr. Ann Marie Gorczyca really breaks down marketing tips in such a way that they are easy to digest and the index makes it a book that you will be able to reference for years to come. The fact that she is an active practicing orthodontist makes this book a step above in my mind because she is in the "field" everyday, living and breathing what she writes about. Highly recommend this book.

This book is full of great tips and ideas that are not only quick and easy to implement, but they WORK! It's a fantastic read with readily available resources! Her energy is noticeable in every page! It's been amazing to see the results we've had. It's a must read and must have for any practice who is ready to take it up a notch and think about growth with an emphasis on above and beyond service! I'm so glad it's a part of my marketing tool kit! -Deana Zost, Office Manager

Dr. Ann Marie Gorczyca is full of enthusiasm and a treasure-trove of practical and creative ideas. I urge you to purchase this book today and start on the road to practice success! Due to the large volume of strategies it may be best to start with a few great ideas and phase in additional ideas in 6

month increments. No need to have a large volume of unread marketing books in your library. It All Starts with Marketing is all you need to achieve your goals!

I have been doing dental marketing for the past 15 years and have worked with hundreds of dental practices. Dentists wear MANY hats... And Marketing Director is typically one of them. The problem is that most dentists don't have a simple, clear guide for how to handle their marketing. This book IS such a guide. It's practical, actionable, simple, thorough and doesn't get lost in theory. My recommendation is to focus on 2 or 3 of her tips each week for a year or so. By doing so, my prediction is that you'll see remarkable results--and you won't be scratching your head all the time trying to think of new marketing ideas.

If you are feeling like your marketing needs a shot in the arm, just grab this book. The ideas are creative and fantastic and if you for some reason don't love one, just move on to the 200 remaining winners! ROI for this book is off the charts!
