Customer Reviews

I didn't care for the selection in this particular book.

very used. should have been less money

As a piano teacher who has taught from and reviewed many different books, I swear by the Bastien Series. Students love this book because they build confidence by playing pieces that sound much more difficult than they are!

Purchased this book and I am very happy with it. Its perfect for beginner students that want a challenge but Re not ready for two handed, complicated pieces. Definitely recommend this book after completing Faber and Faber piano adventures primer level.

Great addition to primer series since this book has melodies you can recognize.

great for mid level 1 student who finished Primer last year good sight reading for level 2 & 3 students

fine

I was happy with the variety of easy selections in this book. It introduced me to composers I might like to continue playing.
