The Scars Of You (The Scars Series Book 1)

Synopsis

Braxton has spent six years running from his past and the memories that haunt him. The loss of the girl who owns his heart and his best friend unleashed the dark in him. Part of a world of crime and murder, Brax knows he's reached a breaking point and something's got to give. He has to find her. Isabelle. The girl he's loved since she saved him that fateful day when they were nothing more than just kids. The day she went away was the day he lost his heart. That was the day he became everyone's worst nightmare. He became a monster. He is hated, feared, and has nothing left to live for. Isabelle has lived the last six years of her life without hope and in total isolation. Now she finds herself in the clutches of evil with no way out. All she dreams of is to be reunited with the one boy who showed her what it means to truly be loved. Without him, she's surrendered herself to an existence she doesn't know how to escape. In a moment that will change both of their lives forever, Brax comes face to face with the girl who, for six years, captured his heart. He is unable to ignore the buried desires and the hope for the future they dreamed they'd have. Can he save the girl he once lost, or will the fight cost him more than he could ever imagine?

Customer Reviews

Once I started this book I couldn't put it down, I love a dark and twisted read and this pushed all my

buttons. A gruelling and heartfelt story of best friends Braxton and Isabelle ripped apart in the most heartbreaking way. Braxton knows Isabelle would not leave him without saying goodbye, convinced something else has happened, He vows to never stop looking for Isabelle, but will he find her in time before it's too late. Isabelle is living in her worst nightmare and hell on earth, she refuses to give up and so begins a journey of survival to get back to the one man who owns her heart and Soul. A gruelling, Dark read full of heartbreak, tragedy, gripping and intense and plenty of emotional situations. I couldn't stop once I started, Rachael has a great way of keeping you hooked with every page turned, with an intense and 'Hell No' humdinger of a cliff hanger, I seriously can't wait for book 2.

Yes totally picking jaw up off the floor. Damn. I love a good twisty read. And this is a fabulous twisty read. Braxton stole my heart. His Alpha I will never forget or stop looking for her just drew me in from an instant. This is a story of 2 survivors both hanging on for that little hope of the one they love to save them. And bam, holy moly what a ride. I'm so ready to slap Jessica damn her. Isabelle such a strong heroin. I kept expecting one thing and the strength she has is amazing. Rachael ugh really. I can't wait for book 2. I really really need it like now dammit. You left an amazing cliffy and in reading The Scars of You I know the next one is going to be one hell of a ride. This is a must read.

5 OMG stars!! This is a book you def do not want to miss out on!! This is NOT a stand alone. It is the first of the series and ends in a earth shattering cliffy!! Åf Å Å, Å “Å Å¤ This is Braxton and Isabelle's story... Braxton~ I had a truly crappy childhood except through all the bs I had my best friend Travis. Until one day some blonde little sassy girl walked into our life. And now I had two best friends for life. Until I didn't.... Now my life consists of death, drugs, money and mindless sex. Isabelle~ I didn't need anything other then my two best friends. But it was all taken from me. I will never forget that beautiful boy... Åf Å Å, Å ª My Thoughts... I wish I would have highlighted quotes but I was so deep into this book that I did not even think of any of that. I am so in love with this book!! And that ending WTH!!! I mean I literally just got to my happy place. I, first of all, am in love with Braxton (before and after)!!! I want to heal this poor man. Now with as much as I love him I love Izzy just as much. What a strong woman. Team Brazzy!!! This book is filled with dark and so much betrayal!! Oh how I wish I could put my hands through the book. And dang if my mind is not made up about Carter. I wish I could talk about some other characters but I am not ruining the story. So much in this book that I just didn't see coming that made it PERFECT. This could be in my top three books of the year!! Funny thing is the last duet this author wrote I was this in love as

well...one book even two could be just luck but I'm now on like FIVE books from this author and I LOVE them ALL!! And now I will stalk her with everything I have for the next book! This book was read in one sitting, while recovering from a miserable hang over (I thought I would just get a couple chapters in if I could even read). I felt nothing around me I was entranced in this world of loss, revenge, strength, love and so much deceit!! If you can't handle dark stuff and some touchy triggers then this may not be for you but for all of the rest of you just like me this is THE book!!**I received this book as an ARC and out of pure love for this book I gave my honest review**

First of all, let me start by saying Whaaaaaat? You can't just end it like that! I need answers! Oh my God, I need a moment to wrap my head around that, because I wasn't prepared for that ending. Now I'm going to be waiting with bated breath for the next one! Isabelle, Braxton and Travis are like the three amigos. They've been friends for a long time, and in each other they found a safe haven. Only their entire world is spun out of control by the acts of a controlling father, and some crazed men. The horrendous things that these characters had to go through was just heartbreak. These poor, tormented souls have endured so much hurt in their lives. I won't go into details because I'm not one to post spoilers, but it was certainly not what I expected. Be prepared to hate, because one character in particular has the ability to make you want to reach inside your kindle and do unspeakable things. He's just plain nasty. In fact, there are a couple of other people in this book who also fit that criteria. You know the type? The ones that make you so angry you wish you could just give them a taste of their own medicine. But there are also some redeeming characters in there. I wasn't sure about Carter to begin with, but he grew on me as the story continued. He may do things a little differently, but deep down, he cares. Isabelle has a strength inside of her that helps her to get through her ordeals. Her will to survive is strong. Braxton is like the broody, alpha male who never loses faith. He has spent his life trying to make up for his past, and holding out hope that he can finally get back everything he has lost. Overall, great story with a lot of emotion involved. Some seriously evil characters in there and an ending that will have you desperate for more!
