Customer Reviews

I am currently planning a trip to Turkey that includes bus and rental car transportation. This map is great because it also has symbols that show historical places that I might not otherwise have known about when I'm driving the rental car. It's a terrific road map and I've made so many marks on it that I'll probably have to order another one before I leave.

I have purchased Michelin and other maps for a number of European countries, most recently for Turkey. I have never been disappointed with the amount of detail available and the real sense of the country side. And, I recommend them without hesitation.

This is a fine map with very good detail for use when touring Turkey. A very useful planning tool for individual travel, or locating sites when on a tour.

Michelin Turkey map was very informative and easy to read and find locations of interest. Specially, the Aegean (Western) coast of Turkey had enough detail to plan my trip in August 2015. I

recommend it highly for visitors to Turkey.

use this for an art project i like the quality of the print and it does what its suppose to do

Info is good and plenty of it, but it is a huge awkward thing. I would recommend it, but it's a beast to handle.

my Turkish guides thought this map was so good I let them use it on our tour then left it with 1

Wonderful map, very helpful!!
