Customer Reviews

Here you will find the sauce for every dish $\text{Ã¢} \text{â} \text{â} \text{œ}$ very diverse and interesting

combinations of ingredients that will bring new flavors to usual meals.

How can you eat fried potatoes without sauce? Or how can you make a pasta without sauce? I'm sure it is possible, but then it will be quite different dishes. After reading this book, I started making new sauces. And I will tell you that this book is now my best adviser in the preparation of sauces. If you like tasty food and also different sauces, then this book will suit you.

I think that sauces is one of the main parts of cooking. With only right sauces you extremely change your dishes in good way. And it's so good that you can find a lot of tasty sauces in one book like that! Written on high level with any sauces that you should definitely try. Easy to make and full of taste.

I figured it was too easy to be an expert in sauce making. I thought wrong. Even sauce recipes are crucial. If one will follow the steps here properly, the end result will be just fine. I tried doing experiments too. So far, these are all good and tasty, just need more pictures added on it.

Great for ideas and begginers. Had fun browsing this book and using some of the techniques and recipes. This cookbook is very thorough. Easy to read and understand. Highly recommend. Actually I have been recommending this cookbook to family and friends.

A simple guide to making all kinds of sauces. Ingredients are minimal and mostly you already have at home. Preparation time is also quick, hence highly recommend especially to the working individuals. A useful companion cookbook that I now add to my collection.
